

Smarter Financials for Construction & Design Pros

Faster Workflows with Houzz Pro AI

Houzz Pro's built-in AI features help contractors and designers work faster and smarter:

-  Draft client emails, updates, daily logs and notes in seconds, simply review and send.
-  Instantly generate structured, itemized estimates from prompts, no need to build from scratch.
-  Auto-generate a project schedule based on your estimate or scope, no guesswork needed.
-  Let AutoMate suggest tasks based on project progress, no need to manually plan each step.

With AI working in the background, you spend less time on admin and more time growing your business.

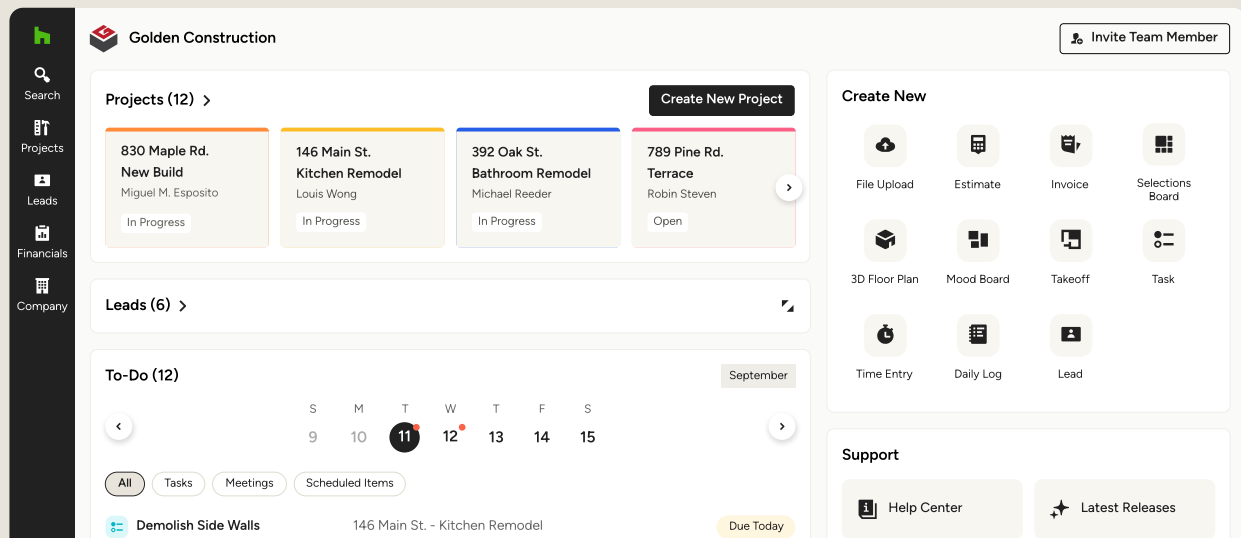

Streamline Your Books with QuickBooks Online Integration

Say goodbye to duplicate entry and disorganized books.

With Houzz Pro's one-way sync to QuickBooks Online, your estimates, invoices, and payments flow directly into QBO—keeping your financial data accurate, consistent, and easy to manage across platforms. Spend less time reconciling and more time adding value to your clients.

Streamline Every Part of Your Project – From Estimate to Payment

With Houzz Pro, you get powerful, integrated tools to run your business efficiently and professionally—all in a platform that works hand-in-hand with QuickBooks Online.

-  Build polished, branded estimates and proposals that win work
-  Create, send, and manage invoices—including progress billing
-  Stay on track with client approvals and real-time project updates
-  Get paid faster with built-in credit card and ACH payment options
-  Schedule tasks, meetings, and team members to keep jobs moving
-  Store all your contracts, photos, files, and communication in one hub
-  Track time, materials, and on-site progress with ease
-  Sync clients, vendors, products, and services seamlessly with QuickBooks Online
